At TUC Congress this year, support for Palestinian rights was overwhelming. TUC policy “instructs the General Council to work closely with the Palestine Solidarity Campaign to actively encourage affiliates, employers and pension funds to disinvest from, and boycott the goods of, companies who profit from illegal settlements, the Occupation and the construction of the Wall”.

For the last three years, the TUC has voted to support Palestinian rights, and oppose racism. The trade union movement is a central pillar of the struggle to support peace and justice for Palestine, just as it was in the struggle against apartheid in South Africa.

This conference will promote discussion on how we take the campaign on the boycott of complicit firms forward, with keynote speakers from Palestine and the trade unions, alongside practical workshops to develop the work and increase solidarity nationally, regionally and locally.
