Liz Lawrence

UCU president

**Kevin
Courtney**

NUT deputy general secretary

- Over 3.5 million students attend further and adult education colleges.
- 800,000 16-24 year olds are not currently in education, training or employment.
- 15% of 16-65 year olds have no qualifications whatsoever.

So why is the government budget for further and adult education being cut year on year?

This meeting will address the vital role that further and adult education plays.

It will look at why the lack of funding to the sector will leave millions of people without the possibility of a second chance in life.

This in turn will mean that society as a whole will be weakened economically and culturally.
